

### Assembly Equipment

We turn intricate assemblies into repeatable, consistent, reliable processes. From manual stations to full production lines, we design and build custom automation equipment to help medical device manufacturers maximize production.

### Inspection Technology

Validate the presence, alignment, and orientation of precise components throughout the assembly process with robust machine vision and error-proofing solutions, programmed and trained to your standards and production environment.

### Test Systems

We offer a range of flexible, extensive systems for end-of-line testing, force simulation, electrical testing, and more to test your devices against external forces not tested during the assembly process and enable operators to perform precision assemblies with less rejects.

### A Smarter Approach to Automation for Medical Device Manufacturers

At Invotec, we approach automation with feasibility, flexibility, and focus in mind. That means collaborating with your team—determining the best solution to meet your needs and budget while accommodating the changes often associated with medical device manufacturing.

# HAHNGROUP

advanced automation

Invotec designs and builds custom assembly, test, and inspection equipment for medical device manufacturers. We specialize in applications with small-to-medium-sized components and complicated assembly processes—providing a range of robust, reliable, semi-automated and fully-automated solutions. Our flexible approach allows customers to refine their product design while we engineer the equipment, and as part of the HAHN Group, we are able to leverage a network of best practices and global support. Visit [www.invotec.com](http://www.invotec.com) to learn more.

The HAHN Group consists of a network of specialized companies for industrial automation and robotic solutions. With its own production sites in Austria, China, Czech Republic, Croatia, Germany, Great Britain, India, Israel, Mexico, Switzerland, Sweden, Turkey, and the USA, the group currently has approx. 1,400 employees at 24 locations. Well-known customers from the automotive, consumer goods, electronics, and medical technology industries benefit from the HAHN Group's 30 years of expertise and automation know-how.
